# Batteries and Furs

SAFETY and convenience prompt a woman to put her furs in storage for the Summer-if she doesn't wear them.

The same reasons impel a motorist to put his battery in storage for the Winter-if he lays up his car.

An idle battery in an idle car deteriorates rapidly-especially in cold weather. And there's always danger of freezing, too.

We'll not only "store" your battery this Winter but return it to you practically new in the Spring. You'll be astonished how little it costs you.

Winter's just around the corner. See us about your battery now.
